PROPOSALS

For Publishing, by Subscription,

THE COMPLETE WORKS OF

SIR WALTER SCOTT:

With a Biography: being the first American (and only) edition which contains the Author's last additions and illustrations, arranged upon their respective pages.

A COMPLETE and uniform edition of the various productions of the great 'Minstrel of the North,' is a *desideratum* with the American public. No library is complete without them, and no edition extant is sufficiently compact for such a repository; while the endless number of editions, *without any uniformity in size,* heretofore published, besides being exceedingly cumbrous, are far too voluminous and expensive to be within the reach of the great majority of readers. The undersigned therefore announce, that they have now in press, and will issue, an edition of the Works of Sir Walter Scott, which will embrace all his Poems, Novels, Histories, Biographies, and Fugitive Compositions, as well as the Biography and Private Correspondence, now in the course of publication in England, under the superintendence of Mr. Lockhart.

1st. In Parts: each Part embracing as much matter as is contained in two volumes of the present editions of the Waverley Novels, which will be put at the unprecedented low price of THIRTY SEVEN AND A HALF CENTS.

2d. Two parts will appear each month; but should the publishers find the work to meet the patronage they anticipate, FOUR PARTS will be issued monthly.

3d. The whole will be completed in *seven volumes,* or *forty eight parts.*

The paper on which the above is now printing, has been made expressly for the purpose; the present parts may, therefore, be considered a fair specimen, in every respect, of the whole work; but, should dissatisfaction arise with any subscriber, owing to an inferior article being offered, he may discontinue at any time, and have the amount paid returned.

Note.—The publication of the first volume is deferred until the receipt of the Biography, Private Correspondence, and the New Edition of the Author's Poetical Works, with 'contemporary criticism—various readings—and correspondence with some of the most eminent persons of the time when the Poems first appeared,' now in the course of publication in England.

Volume 1 will be ornamented with an excellent Portrait of Sir Walter Scott.

COMMUNICATED.

MR. CRAIG—At a meeting of the citizens of Warren, in Trumbull county, Ohio, on the 1st inst., it was—

"*Resolved*, That it is expedient to appoint delegates from this county to meet such delegates as may be appointed by the counties of Pennsylvania and Ohio, interested *in the construction of a canal*, to intersect the canal in Pennsylvania"—"That the Convention meet at Warren, on the second Wednesday of November next."

While the people of Pennsylvania are undecided as to the best mode and rout of communication with the Ohio Canal, and a pamphlet is now in the press, which will exhibit, as far as is practicable, the relative advantages of the various projects for effecting this most desirable object, would it not be improper to call a meeting to appoint Delegates to attend the Convention at Warren? In a matter of this kind, it is unquestionably the duty of the citizens of Pittsburgh to avail themselves of all the information in their power, before making a decision; and, after careful enquiry and examination, to favor that rout, and that method of communication with the Ohio Canal, which may, in their opinion, secure to Pennsylvania the largest amount of the trade of Ohio.—It is certainly desirable that as much unanimity as possible should prevail on this subject, among our own citizens, that we may act, at a proper time, with vigor.

I feel opposed to holding a convention at any place on either of the proposed routs, because the effect would be to distract the public mind, and neutralize that exertion which is indispensable to the accomplishment of the enterprize. I concur, however, in the propriety of a convention being held on the subject, and would suggest that the place for holding it be Harrisburgh—the time, the first week of the meeting of our Legislature, and that Delegates, from the towns in Ohio, interested in any of the proposed routs, together with Delegates from Philadelphia and Beaver, be requested to attend.

LATEST FROM AFRICA.

From the Liberia Herald, of August 8th, for which we are indebted to the Editor's politeness, we learn that an increasing and very gratifying interest is apparently felt in a point of vital moment to the Colony—its EDUCATION. A free school for the benefit of recaptured Africans has been in successful operation for some weeks, under the care of Rev. James Eden. Mr. Savage, also, who had recently arrived as agent for the emigrants, by the Ajax, from New Orleans, was making arrangements to establish a Manual Labor School, at Millsburg; and the Editor thinks he may have the credit of establishing the first institution of this kind in Africa. He dwells also with great apparent pleasure, on the project of the MASSACHUSETTS FREE SCHOOL, which he hopes will be vigorously pursued.

To illustrate the business of the Colony, we make an extract:

Commission Business.—The subscriber respectfully informs his friends and the public, that he has built, on Water street, No. 320, a large Stone Ware House, convenient to the water's edge, where he intends carrying on the commission business; and is now ready to accept of any vessel or vessels, whose masters wish to have their business done. The said house is quite convenient for storing Tobacco, Flour, Beef, Pork, Lard, Butter, Molasses, Sugar, &c. And, on the upper floor, Dry Goods and Crockery Ware. And withal he is a licensed Auctioneer.

HENRY S. NELSON.

Monrovia, August 5th, 1833.

Here is another, and we are glad to see *no ardent spirit* mentioned either in this or the prices current:

DAILEY AND RUSSWURM, offer for sale the cargo of the Schr. Wm. Tompkins, from Norfolk, Va. consisting of

23 hhds. dark leaf Tobacco, of superior quality;
350 bbls. provisions, consisting of Mess prime Pork, Beef, do. Mackerel, No. 2; Shad and Herrings and Lard;
125 bbls. superfine family Flour;
199 Springfield Hams;
425 kegs assorted Nails;
200 boxes yellow Soap;

Monrovia, Liberia, August 5th, 1833.

The Herald always contains notices like the following:

The fast sailing coppered and copper fastened Schooner Rebecca, Hall master, will sail alternately from this port, for Windward and Leeward, and will take freight on moderate terms; for which or passage, apply to DAILEY & RUSSWURM.

One more must suffice:

General orders. Commanders of the different Corps of Monrovia, will cause their companies to parade on the Saturday preceding the second Monday in August, in Broad street, precisely at 9 o'clock, A. M.

N. B. A Battalion Court Martial will be held at the Town House, at 10 o'clock, A. M., on the second Monday in August. By order of the Major.

JACOB W. PROUT, A. M. F. L.

The keeper of the Colonial Hotel advertises, we see that one of his rooms is used for a dry goods store; and that he has two blacksmith's forges, and a cabinet making business, in operation, besides acting as merchant taylor, lumber merchant, and licensed auctioneer. Well done, Randolph Cooper! Enough certainly for one man.—*Bost. Jour.*

It appears that the following protest was issued in London, in July last.

PROTEST.

We the undersigned, having observed with regret that the "American Colonization Society" appears to be gaining some adherents in this country, are desirous to express our opinions respecting it.

Our motive and excuse for thus coming forward, are the claims which the Society has put forth to *Anti-Slavery* support. These opinions are, in our opinion, wholly groundless; and we feel bound to affirm that our deliberate judgment and conviction are, that the professions made by the Colonization Society of promoting the abolition of Slavery, are altogether delusive.

As far as the mere Colony of Liberia is concerned, it has no doubt the advantages of other trading Establishments. In this sense, it is beneficial both to America and to Africa, and we cordially wish it well. We cannot, however, refrain from expressing our strong opinion that it is a settlement of which the United States ought to bear the whole cost. We never required of that country to assist us in Sierra Leone. We are enormously burdened by our own connexion with Slavery; and we do maintain that we ought not to be called on to contribute to the expenses of a Colony which, though no doubt comprising some advantages, was formed chiefly to indulge the prejudices of American Slave-holders, and which is regarded with aversion by the colored population of the United States.

With regard to the extinction of the Slave Trade, we apprehend that Liberia, however good the intentions of its supporters, will be able to do little or nothing towards it, except on the limited extent of its own territories. The only effectual death blow to that accursed traffic, will be the destruction of slavery throughout the world, we are compelled to say that we believe the Colonization Society *to be an obstruction.*

Our objections to it are, therefore, briefly these:—While we believe its pretexts to be delusive, we are convinced that its *real* effects are of the most dangerous nature. It takes its root from a cruel prejudice and alienation in the whites of America, against the colored people, slave or free. This being its source, the effects are what might be expected, that it fosters and increases the spirit of caste, already so unhappily predominant; that it widens the breach between the two races—exposes the colored people to great political persecution, in order to *force* them to emigrate; and finally, is calculated to swallow up and divert that feeling, which America, as a Christian and a free country, cannot but entertain, that slavery is alike incompatible with the law of God, and with the well being of man, whether of the enslaver or the enslaved.

On these grounds, therefore, and while we acknowledge the Colony of Liberia, or any other colony on the coast of Africa, to be, *in itself*, a good thing, we must be understood utterly to repudiate the principles of the American Colonization Society. That society, is, in our estimation, not deserving of the countenance of the British public.

ONE DAY LATER FROM ENGLAND.

An arrival at Quebec brings London dates to the 26th, and Liverpool of the 28th August, being one day later than before received. The Montreal Gazette gives the following extracts from Neilson's Quebec Gazette, which latter paper has not reached us. It will be seen that these extracts are of little interest.

The fast sailing ship, Dyrope, Captain Hamilton, has brought Liverpool papers of the 25th, and London of the 26th August.

The reports of the Bank Charter Bill, (on which a division of 29 to 11 had taken place,) was brought up on the 24th, and ordered for a third reading on the 26th.

The Chancery Office Abolition Bill was also to be read a third time the same day.

The King would prorogue the Parliament, in person, on the 29th or 30th, at latest.

LONDON, Aug. 26.—The Commons have adjourned till Wednesday, to give time to the Lords to get through with the business now before them.—The prorogation will be on Thursday.

A pretty severe panic has seized all the Government Securities during the latter part of the week. The depreciation amounted, in Consuls for money and account, to not less than 1 per cent.

A report was circulated, late on Saturday afternoon, that the African steam boat, which took out instructions to Lord William Russell for the recognition of Donna Maria, had returned. The regency Scrip rose from 20 1-2 to 21 1-2, but fell back to 21, no confirmation being given to the account.

There are advices from the United States to the 25th August.

It was stated by Mr. S. Rice, last night, in the House of Commons, that the three next quarterly sales of tea would be conducted as usually by the East India Company; afterwards the Board of Control would order the quantity to be brought forward; that all alterations in the duty would be reductions in the import rate. The proposed reduced rate:—1st class, 96 per cent. to 88; 2d class, 100 per cent. 94 1-2; 3d class, 100 per cent. to 81. This afternoon, the market remains very steady.—*Poulson.*

The Christian Æra.—The venerable Bede, the English Historian, who published his Ecclesiastical History in the year 731, is the most ancient author whom we find using the modern date *Anno Domini*. It was adopted in France, under King Pepin, and fully established in the reign of Charlemagne. The custom of beginning the year on the first of January, commenced in France, in 1564.

Troy, N. Y., in 1825, had 7,369 inhabitants—in 1830, 11,656. At present, probably 14 or 15,000.

Remedy for the Cholera.—A new remedy for this frightful disease is given in the account of its prevalence in Mexico.

"At Zepatilan, (says the writer,) every case of Cholera that occurred was cured by the use only of the root of a plant, called by the natives coquelicot sauvage† (*amapola silvestre,*) and with which the country abounds. The juice is extracted, and the patient takes it externally. It has invariably been found efficacious, and none have yet taken it but with the most decided success. The bulb of this plant cannot be confounded with that of any other, because it is phosphoric; this can be tested by putting it into a transparent vase of clear water, to be placed in a dark room—if it be genuine, in a quarter of an hour a brilliant light will be emitted out of the vase. This simple remedy has worked miracles."

† This plant is the same, it is presumed, with that known in this part of the country by the names of coke or cokelico—as it is pronounced.

Alabama.—As the questions growing out of the treaty of March 24th, 1832, between the U. States and the Creek Indians, have already given occasion to much excitement in Alabama, and will probably be attended with more, it may be well to recapitulate the circumstances which rendsr them important. By the treaty in question, the lands now occupied by these Indians were ceded to the United States; but a right of selection, after the surveys should be made, was reserved to ninety of the principal chiefs. The surveys are not completed, and this right has, of course, not yet been exercised. Before and since the conclusion of the treaty, many white persons have established themselves on these lands, and resist all persuasions to remove. By one of the articles of that treaty, intruders are to be removed from the lands in question, in the same manner as from other public ones, and the mode of removal is pointed out by the act of March 3d, 1807, which authorizes the President to use military force for this purpose. In the mean time the Legislature of Alabama has extended its jurisdiction over them, and meetings have been held in various parts of the State, in which a determination has been expressed to resist the attempts of the government to remove the intruders. The opinion of the Attorney General is clear and explicit in favor of the power of removal, and the Secretary of war has given notice that force will be resorted to, if necessary, in order to effect it.

Bears.—It is scarcely in the recollection of the oldest inhabitants that so large a number of these animals have been killed and seen in this District. Probably not less than 30 to 40 have been sold in our markets in the last month and as many more killed. Two or three persons have had narrow escapes in encounters with them, and about two weeks ago a person was said to be devoured by them. The following account as regards the parish of St. Joachim, 25 miles below Quebec, is furnished on good authority;—"A gentleman from St. Joachim mentions that no less than twelve Bears have been killed in that Parish within the last thirty days. These animals were uncommonly lean and voracious. Most of them were destroyed by fire arms or taken in snares. In one instance, however, he states that a large bear came boldly upon a man who was working in a field with a scythe—a struggle took place and the man was badly wounded in the hand and would probably have perished had not his brother come to his assistance, who contrived to trip up and finally to despatch the Bear with a scythe. The animal did not relinquish his grasp of his intended victim until he was completely exhausted by the loss of blood.—*Quebec Gaz.*

How to catch Crows.—Wilson, in his American Ornithology, says that crows have been employed to catch crows by the following stratagem:—a live crow is pinned by the wings down to the ground on his back, by the means of two sharp forked sticks, thus situated, his cries are loud and incessant, particularly if any other crows are within view. These sweeping down about him, are instantly grappled and held fast by the prostrate prisoner, with the same instinctive impulse that urges a drowning man to grasp at every thing within his reach. The game being disengaged from his clutches the trap is again ready for another experiment, and by pinning down each captive successfully, as soon as taken, in a short time you will probably have a large flock screaming about you, in concert with the outrageous prisoners below. This method of catching crows is, I believe, practised in some parts of England to catch jays, who make a most violent outcry when pinned to the ground.—*Jesse's Gleaning's in Natural History.*

Gama Grass.—We have observed in several papers, notices of this grass. The accounts of its wonderful prolific qualities, are such as to stagger belief. It is said to be indigenous in the Southern States, in the neighborhood of the sea, and in the western prairies. The first notice of it appeared in the 13th volume of the American Farmer. Experiments upon it have been made by gentlemen of Missouri, Alabama, and North and S. Carolina. The united testimony of these persons is, that it produces, on the light sandy pine lands of the South on an acre, at the rate of between twenty and thirty tons of cured hay per year—that stock of all kinds eat it greedily. That in that latitude it may be cut on the first of May, and every thirty days after till frost comes. The root is perennial, and grows in tufts of many branches from a common root which is tuberous in its form for about three inches, and terminates in many small but strongly radicles. The leaves, which, previous to the period of flowering, all issue from the root, are of a deep green color, from two to three feet long, and from one to one and a half inches wide, are shaped like a blade of fodder, and rough or sawed at the edges. The mode recommended for its culture, is to sow it in drills three feet apart, and two feet between each root in the drill. It is uncertain whether it would succeed in this latitude, but if it yields such astonishing burthens as has been represented, it would be well worth the experiment, even should it be attended with some trouble and cost.—*Detroit Journal.*

We have never known the public press to take up any subject with more spirit than the recent manifesto of the President. In Virginia, politics do not prevent the fearless expression of opinion.—The Petersburg Intelligencer, a highly respectable paper, friendly to General Jackson, "is far from being satisfied with the propriety or expediency of the measure," of removing the deposits.—*Alexandria Gazette.*

Even the Richmond Enquirer "doubts" the propriety of the measure; and all will admit that it must be bad indeed, if that print hesitates to approve.—*Nat. Intel.*

A musket proof garment is stated to have been invented by two Italians. It is said to be light and flexible.

A fact worthy of notice.—During Amos Kendall's Bank tour, a rich South Carolinian wrote to his son in New York, to sell out his United States Bank Stock. Yesterday the son received a letter from his father, urging him to purchase back the same amount, and as much more as he could raise money to pay for at the market price.—*Poulson, Oct.* 7.

The United States Telegraph says, that Cass and M'Lane "may consider themselves as marked men; their days are numbered; and the moment they can be done without, they will have to make way for those who better know their places.—*Poulson.*

We are indebted to friends in the East, for copies of the youth's friend, a paper published in Smyrna, from which we take the following:—

"When Otho, the second son of the King of Bavaria was chosen for its monarch by the Allied Powers, England, France, and Russia, his father appointed a Regency to govern in his stead, until he should attain the age of twenty two years, hence Count Armansperge is the President of the Regency, and the Counceller, Von Mourer, and Col. Von Heideck, and the other two acting members. A fourth individual was also named and is ready to take a part, in case of the death or absence of one of the other three. Should the present king die without issue, the throne of Greece will devolve on another branch of the house of Bavaria, provided, however, that the crowns of Bavaria and Greece should never be united.

A treaty of alliance, offensive and defensive, has been ratified between the two countries, and, the king of Bavaria furnishes a military force of 5 or 6,000 men for a stipulated term of years. All Bavarian Consuls, are ex-officio, to act as Consuls for Greece.

Attica, Negropont, and the more northern districts included within the treaty, have since been delivered up by the Turkish authorities, and the whole country is now divided into 10 Nomoi, or provinces, which are again subdivided into 42 Eparchia, or districts. The ten provinces are those of Argolis and Corinth, Achaia and Elis, Messenia, Arcadio, Laconia, Acarnania and Actolia, Phocis and Locris, Attica and Beotia, Eubea and the Cyclades, Napoli is appointed the capital of Argolis, which includes the islands of Hydra, Spetzia, and Poros; Patras is the capital of Achaia and Elis; Arcadia or Kyparissia, of Messenia; Tripolitza, of Areadia; Mistrass or Sparta, of Laconia; Brachori or Agrinian, of Arcarnania, and Actolia, Salona or Amphissa, of Locris and Phocis; Athens of Attica and Beotio, (to which Egina is attached,) Chalcis that of Eubea, which includes the northern Sporades; and Herinopolis, in Syra, that of Cyclades.

The Alexandria Gazette, of Saturday last, says, there are reports of "squabbles" in the Cabinet.—We do not know on what authority these rumors are founded, but certain it is, that the Secretary of State is believed to have had a difficulty with one of his colleagues. We hope there will not be another explosion.—*Poulson.*

SUMMER RECOLLECTIONS.

'Tis sweet—'tis sweet—the summer dream
That haunts us in our winter hours;
The murmur'd music of a stream,
The voice of birds—the breath of flowers,
And the warm breeze that lightly heaves
The waters, and the whisp'ring leaves.

There is a dream, more sadly sweet,
When summer years of youth return;
And hearts, that we no more may meet,
As fondly beat, as truly burn,
And eyes weep back to us awhile,
The sadness of their parting smile.

It comes, like music heard at night,
Like dew upon the drooping flowers,
Like morn's first dawning to *their* sight
Who darkly dwell in icy bowers,
To him who long hath felt depart
The light of hope, and bloom of heart.

Not yet—not yet the summer bloom
Of my young heart had died away:
There is a twilight in the gloom,
A ling'ring smile—a farewell ray,
A hope of rapture, kindling yet,
A halo from the sun that's set!

NEW ORLEANS MARKET—SEPT. 21.

COTTON—Arrived since the 15th instant, of Louisiana and Mississippi, 2,029 bales. Cleared none. Stock on hand, inclusive of all on ship board not cleared, on the 19th inst., 3,354 bales. The sales of the week are, viz. 400 bales (new crop) at 17 1-2 a 18 and 245 bales old (one crop) at 15 1-2 cents per lb. The demand is fair for new crop of fine quality, but the stock is yet small, we hear very little said on the subject, and have nothing new to report.

SUGAR AND MOLASSES—As before remarked, the scarcity of these articles is the only fact we have to notice—there is nothing doing in foreign Sugars, and they are shipping coast wise. No clearance this week.

TOBACCO—There is nothing doing in the article. Cleared this week, for Hamburg, 307 hhds. Stock on hand, inclusive of all on ship board, not cleared on the 19th instant, 983 hhds.

FLOUR—We quote this week $6 50 per bbl. The Market is very dull, and was it not that some contracts to deliver a certain quantity at a fixed period, appear now likely to fall in consequence of low water in the Ohio, there would be little or nothing doing—as it is, the article may be said to have a force demand. Arrived this week, 75 barrels

LARD—The article is in few hands, and 11 and 12 cents per lb. is asked. No arrival this week.

WHISKEY remains dull—we quote 29 cents per gallon, few sales. Arrived this week 44 barrels.

BACON is scarce, particularly hams. No arrival this week.

PORK AND BEEF are also scarce, and in good demand—no arrival from the Western country this week. Some New York beef has got in and is in good demand.

BAGGING AND BALE ROPE—No change has taken place in price; the articles are scarce and in fair demand. No arrival this week.

INDIAN CORN—The demand for the Mexican market having abated, the article has fallen. We quote now in ears, $1 per barrel, shelled, in sacks, 62 1-2 cents per bushel.

LIME, *Thomaston*—The last cargo sales were at $2 59 per cask—the demand continues fair.

LEAD, *Pig*—We make no alteration in former quotations, $5 12 1-2 a 5 25 per 100 lbs. No arrival this week.

SPERM CANDLES—The price has advanced, and the article is selling now at 36 a 38 cents per lb.

FISH, *Mackerel* remain without change, and but little inquired for. The late arrivals of *Cod* were sold at $1 35 a $1 50 per box.

RICE, *Carolina*—The price has been reduced this week, and the article has been sold at 3 50 and 4 per 100 lbs.

FREIGHTS—Our rates are nominal—vessels are plenty and freights scarce.

Extracts from the Philadelphia Market; ending Saturday evening, October 5, 1833—Collected for the United States Gazette, from actual sales.

COTTON—There has been no arrivals this week; sales of 146 bales Georgia Uplands at 16 1-4 a 17 cts; a parcel of Louisiana and Mississippi at 17 a 17 1-2 cts. The stock on hand at this time is quite light.

COFFEE—The imports of the week amount to 723 bags. The following sales have been reported—200 bags Rio, at 12 1-2 cts., 4 mths; 55 bags Laguira at 13 cts., cash; 50 bags Porto Rico at 14 cts., 4 mths; and St. Domingo at 12 1-2 cts; and 150 bags Havana at terms not reported. The stock of coffee in first hands has been reduced this week about 3,000 bags, by a shipment to a port in the South of Europe.

FLOUR AND MEAL—Superfine flour has been without much enquiry, and the sales of the week, as far as we have been able to ascertain, amounts to 1,500 bbls, at $6; 500 barrels included in the above was cold at a fraction less; 300 barrels also included in the above was sold on Saturday at $6; about 450 bbls. rye flour has been taken at $3 75; corn meal has maintained its price, and sales of 187 bbls. have been made at $3 3-8, and a small sale of hhds. at $14 50.

We are indebted to Mr. Davis for the Inspections of flour and meal for the quarter ending 30th ult.

65,002	bbls. superfine Flour;
5,920	half do. do. do;
4,617	bbls. scraped do;
197	half do. do. do;
1,150	bbls. condemned do;
644	do. middlings do;
9,284	do. rye do;
8,485	do. Corn Meal;
2,333	hhds. do. do;

The sales of superfine Flour on the Schuylkill have been steady at $6.

SUGARS—The following sales of sugars have been reported—130 hhds. St. Jago at 9 a 9 1-8 cts., 6 mths.; 50 boxes brown at 8 3-4c., 4 mths.; 60 do. white Havana at 10 1-4 cts., 6 mths., and a small parcel of do. at 11 1-4 cts., and 30 boxes brown at 9 1-4 cts., and 100 bags Isle of France at 9 1-4 cts.

SEEDS—Timothy seed has been sold during the week at $17 a $18; two lots of clover seed at $6 a $6 50; several parcels of flax seed have been sold at from $1 56 a $1 62; the last sales reported were at $1 56. We learn that the crop of clover seed in our state is rather more than an average one, and has been secured in good condition. In the absence of foreign demand, the price will most likely rule low when it begins to come to market freely.

WOOL—The stock of wool is rapidly decreasing, and the sales of the week, as far as ascertained, exceed the receipts; about 16,000 pounds of various grades have been sold at our highest quotations. The cargo of the brig Catherine, from Cadiz, was offered by auction on Wednesday, and 58 bales sold as follows—14 bales Spanish R. R. 65 a 70 cts. per lb.; 8 do. do. R. F. 57; 8 do. do. R. S. 52; 3 do. do. R. 47 1-2; 3 do. Spanish Lambs R. O. A. 55; 6 do. do. do. 49 1-2 a 50; 1 do. do. do. 45; 2 do. do. do. R. R. 46 1-2; 1 bale do. do. R. T. 38 1-2; 6 do. Leonese, R. 95; 1 do. do. F. 85; 1 do. Leonese Lamb, O. 86; 1 do. do. do. T. 68; 3 do. Smyrna, 21. Sale stopped. Terms, from $100 a $200, 90 days; $200 a $400, 4 mths,, and upwards 6 mths.

SHERIFF'S SALE.

PHŒNIX BREWERY, AT KENSINGTON,
PITTSBURGH.

BY virtue of a writ of Levari Facias, issued out of the court of Common Pleas of Allegheny county, and to me directed, will be exposed to sale on Saturday, the 12th of October next, at 10 o'clock, at the Court House, in the city of Pittsburgh, the following described property, to wit:

The following contiguous lots, or pieces of ground, situate in Pitt township, Allegheny county, being part of out lot No. 8, in the manor of Pittsburgh: one of said Lots beginning on the south side of the great road, or extension of second Street, and thence running Beale's and Wade's lots, southwardly, down to the corner of Williams' and Redmond's lots, so as to include the spring house, thence by said Williams' and Redmond's lot westwardly, a parallel line with said road sixty feet, thence northwardly a parallel line with the first line to the road aforesaid, and thence by the same eastwardly, sixty feet, to the place of beginning; with the following piece attached to it, and being part of the same, viz: Being twelve feet wide, and extending from the said lot westwardly to a thirty feet street, which runs between Thomas Greenough's and Edward Encell's houses, adjoining Williams' and Redmond's line: the whole being subject to a yearly ground rent of seventy two dollars.

ALSO—One other of the said lots or pieces of ground, beginning at the south east corner of Thos. Greenough's spring house, and running westwardly by the south wall of the said spring house, and containing, in a straight line, one hundred and forty two feet or thereabouts, to a locust post, thence southwardly, in a direct line with the end of Thos. Greenough's dwelling house, fourteen feet, thence westwardly a parallel line with the said dwelling house about twenty seven feet to a street which runs between Greenough's and Encell's heirs, from the great road to the Monongahela river, thence along the east side of said street to the said river, thence up the said river to a post, where a line drawn in a range with the east wall of said spring house would strike said river, and thence by the said line northwardly to the place of beginning; subject to a yearly ground rent of forty dollars. On which are erected a Brewery, Malt House, and the necessary offices, shops, and dwelling houses; the same being generally known by the name of 'Phœnix Brewery, in Kensington,' Pittsburgh.

Seized and taken in execution as the property of Samuel Dunn and Wm. O'Neil, at the suit of Henry Holdship, and to be sold by me,

WILLIAM LECKY,
Sheriff of Allegheny Co. Pa.

The above Brewery was in successful operation during the last year, and every thing attached to it, and necessary, is now in good repair.

☞Baltimore American, Philada. National Gazette, and New York American, will insert twice a week, three weeks, mark cost, and charge this office. Sept. 10, 1833.—2aw3w.

PIANO FORTES.

MR. TAYLOR respectfully announces to the citizens of Pittsburgh, that he has just received an assortment of PIANO FORTES, from the celebrated manufactory of Robert Nunns, Clark, and Co. (late R. & W. Nunns,) of New York, which he offers to the public at a fair price, and liberal terms.

The instruments of this most extensive establishment have (for quality and volume of tone, and for materials and workmanship) received the decided approbation of the most distinguished professors of this country and Europe. The manufacturers therefore feel confident in resting their claims to public patronage upon the intrinsic merits of the Piano Fortes themselves.

FLUTES.

Also, a few of 'Taylor's approved' Flutes; these instruments are well worth the attention of the Amateures of the Flute.

☞Ladies and Gentlemen are invited to call and examine the above instruments, at Cook and Schoyer's (late Sylvester's) store, corner of Wood and Third streets, where they will remain but a short time, Mr. Taylor's stay in this place being limited. Oct. 7, 1833.

Public Sale of Real Estate.

IN pursuance of an order of the Orphan's Court, of the county of Allegheny, will be exposed to Public Sale, at the Court House, in the city of Pittsburgh, on Monday, the 21st day of October next, at 11 o'clock, A. M., the following described Real Estate, late the property of Oliver Ormsby, deceased, viz:—

1st. All that certain piece of land, situate in St. Clair township, on the Brownsville road, between 3 and 4 miles from the city of Pittsburgh, now occupied by Mrs. Nelson. This tract contains 49 acres, and 144 perches. There are upon it about 35 acres of cleared land; a substantial hewed log house, two stories high, and a fine bank of coal. It is bounded by land late of Henry Baldwin and others, and is part of a tract formerly owned by Fulton, and which was divided among the said Oliver Ormsby, Henry Baldwin, and William Wilkins.

2d. All that certain tract of land, situate on the south side of the Monongahela river, in Mifflin township, now occupied by Fergus Dempsey and George Ramsey. This tract contains, by the patent, 209¾ acres, and is bounded by land of Johnston Glass, Daniel Reisher, heirs of Robert Hays, Joseph West, and others, and by the river. There are about 150 acres of bottom land on this tract: the well known Ferry, called 'The Six Mile Ferry,' is also upon it. Nearly all the bottom land is cleared. The buildings are as follows, viz: —a log tavern house and barn at the Ferry, and a large frame barn, and a frame dwelling house upon the part occupied by George Ramsey. If desired by purchasers, the tract would be sold in two parts, to be divided by the run.

☞The titles to these tracts are indisputable.—Any information, respecting the land, or the titles, can be obtained from the subscribers. Terms at sale. HENRY M. WATTS,
CHAS. S. BRADFORD,
Administrators of Oliver Ormsby, deceased.

PERIODICALS.

AMERICAN RAILROAD JOURNAL, and Advocate of Internal Improvements, which is designed as a repository of the accounts of the rise and progress of numerous works of Internal Improvement, in the United States particularly, and in other parts of the world generally. The work is published weekly, and forms a large octavo volume each year, of 832 pages of 3 columns each, for $3 per annum, in advance.

New York Farmer, and American Gardener's Magazine. This work is designed for the agriculturist, and will be found to contain much, both interesting and profitable, to those who cultivate the soil as a business, or merely a garden for amusement. Published in monthly parts of 32 large octavo pages, with three columns each, at $3 per annum, in advance.

Mechanics' Magazine, and Register of Improvements and Inventions. To the Mechanics of the United States—In this populous and enlightened country, almost every description of persons can obtain knowledge and amusement connected with their peculiar pursuits, through the medium of the Journal or Magazine, especially devoted to their interests. The Theologian, the Farmer, the Philosopher, the Sportsman, and even the Plough Boy, has each his Journal, where he can find a record of the passing events of the day, connected with his peculiar avocations and recreations. Hitherto, the Mechanics (who form a large and most important portion of the community) have had no Journal, to which they could turn, with the certainty of finding that information they desire, no periodical of which they could say: 'This is ours, and for us.' In the hope that the attempt to supply such a want at a price so reasonable as to be within the reach of all, will meet with your active support, the subscriber proposes to publish, on the first day of each month, a Mechanics' Magazine. It will contain a well digested selection of the most useful and interesting articles in the London Mechanics' Magazine, London Register of Arts and Sciences, Repertory of Inventions, Library of Useful Knowledge, Journal of the Franklin Institute, and o her works, connected with the arts and manufactures, published in this country and in Europe, accompanied with numerous and well executed Engravings. Its pages will be open for the communications of all, and especially for those of the practical artisan, to whose interest it will be particularly devoted. The Mechanics' Magazine will contain, also, a due portion of the occurrences of the month, Scientific and Literary Reviews of Books, Anecdotes, Economical Receipts, Reports of the state of Mechanics' Institutions, and other Scientific Societies in this state and other countries. To be published monthly. Each succeeding number will contain 64 pages, handsomely printed, and stitched in a neat cover. Six numbers will form a volume, for which an index and title page will be supplied, and also a Portrait of some distinguished Mechanic, as a Frontispiece. Terms, $3 per annum, in advance.

D. K. MINOR,
Wall street, New York.

☞ Subscriptions for the above works, (where a specimen of each can be seen,) will be received at S. J. SYLVESTER'S,

SATIN BEAVER
HAT MANUFACTORY,
NO. 6 ST. CLAIR STREET,
PITTSBURGH.

WILSON & SMITH, from N. York,

RESPECTFULLY inform the citizens of Pittsburgh and the neighboring towns, that they have commenced the manufacture of the above beautiful and elegant article, so much admired and worn throughout Europe, and the principal cities in the United States.

W. & S. beg leave to observe, that, after various experiments, they have at last succeeded in bringing this Hat to the highest state of perfection, and they can assert, with confidence, that in point of color, lightness, elasticity, durability, and general beauty of appearance, they cannot be surpassed by the most expensive Hat that is made. Gentlemen are invited to call and examine them, and judge for themselves.

Wholesale Dealers supplied at the same prices as in the New York markets.

DOCTOR ROBERT'S
☞ *WELCH MEDICAMENTUM.* ☜

FOR the cure of Dyspepsia, Liver Complaints. Jaundice, Cholic, Fever and Ague, Dysentery, Headach, Loss of Appetite, Flatulence, Hypochondria, Hysterics, Dropsical Complaints, and Heartburn, It also prevents all Bilious disorders, and removes habitual Costiveness, Asthma, Strangury, Gravel, Rheumatism, Gout, and Impurities of the Blood.

A person who uses this Medicamentum will not require the use of the lancet, or any means of the healing art. It restores and revives the animal spirits, invigorates the system, removes nervous tremors, obtunds rheumatic and anthritic pains, and prevents their return. It cleanses the stomach of all morbid humors, which cause indigestion, acidities, headach, and lowness of spirits; cures all bilious disorders, and all cholics of the stomach and bowels, almost immediately; inspires cheerfulness; gives comfort to the dropsical; takes away palpitation of the heart; gives circulation to the blood; restores bloom to the sallow or sickly cheek, and plumpness to the meagre habit; purges without pain, and banishes all cause of fever of every kind. It acts on the stomach, that great reservoir of the human system, a diseased state of which causes all diseases. No alteration in the usual habits of life is required, but the abstaining from distilled ardent spirits.

CERTIFICATE,
From Rev. Derick Lansing, D. D., Pastor of the Second Presbyterian Church in Utica.
Utica, Jan. 6, 1830.

To Dr. Hitchcock.—Dear Sir: I have always been one of the number of those who have placed little confidence in *nostrums* or *specifics,* and for this reason, although I saw your advertisement of the Welch Medicamentum, I could not bring my mind to consent to use it. My sufferings, from indigestion, during the past summer, were so severe, as materially to affect my comfort, and my capacity for usefulness. I have reason to thank you, sir, that, on hearing of the state of my health, you kindly sent me your Medicamentum. I have taken it faithfully, and with entire success. I have not been visited with one of those turns of distress, which before were weekly periodical, since I began to take your valuable medicine. Could I receive the same relief which I have hitherto experienced, on condition of taking it for life, I should cheerfully comply with such condition. Your's, very truly, D. C. LANSING.

ANTI-DYSPEPTIC ELIXER.

ONE of the most agreeable and efficacious Medicines ever discovered for the permanent cure of those chronic states of derangement of the stomach, constituting that miserable disease called Dyspepsia.

The basis of this Elixer is vegetables, and perfectly innocent in its operation; it destroys that sour state of the stomach, the instant it is taken, and stops the morbid secretion, by giving strength to the muscular fibre of that important organ, by which means the peristaltic motion of the intestines is increased, and the costiveness obviated; a new action is given to the system, which puts an end to a train of distressing nervous sensations.

Another form of the disease in which the Elixer is admirably calculated to relieve, is the decline of fever, where the stomach will not bear the ordinary strengthening medicines indicated in such cases, it has the surprising effect of giving vigor, and restoring the natural secretions of the body, without increasing the febrile state. Not the least danger is to be apprehended from exposure to cold, while under the use of this medicine, nor will it interrupt necessary employment of the patient a single hour.

☞A number of cases of cures performed by the Anti-Dyspeptic Elixer in the vicinity of Pittsburgh can be given.

GEO. W. CARPENTER'S
COMPOUND SYRUP OF LIVERWORT,

A SAFE and Valuable Medicine for Coughs, Spitting of Blood, Consumption, and Liver Complaints.

Most of the medicines made use of for the above diseases are of a stimulating nature, composed generally of Resins and Balsams, in alcoholic solutions, which, although sometimes giving t emporary relief, in almost every instance where they are freely used, aggravate the disease, and reduce the strength of the patient.

This article possesses superior advantages over these preparations, its action being of a tonic, invigorating and strengthening nature, thus overcoming the disease by promoting expectoration, and gradully increasing the strength of the patient, and thus, without being attended with any unpleasant effects: it also agrees with the stomach, in a cases, and is a pleasant medicine to take.

PATENT PLANING MACHINE.—The right to use this valuable machine, invented and patented by William Woodworth, and known as Woodworth's Patent Planing Machine, may be obtained on application to the subscriber for the counties of Allegheny, Butler, Beaver, Washington, Green, Fayette, Somerset, Cambria, Indiana, Jefferson, Clearfield, M'Kean, Warren, Venango, Mercer, Crawford, and Erie, in the State of Pennsylvania. That part of Maryland lying west of the Blue Ridge; all that part of Virginia lying west of the Blue Ridge, except the county of Ohio. The whole of the state of Ohio except the counties of Hamilton, Butler, and Montgomery. The whole of the state of Kentucky, except the counties of Jefferson, Boone, Oldham, Gallatin, and Campbell. The whole of Indiana, except the counties of Floyd, Clark, Jefferson, Dearborn, and Switzerland. The whole of the state of Illinois, and the territory of Michigan. Rights to use the machine in that part of the United States, named above, will be sold by the single county or in larger districts. As it is presumed that no one will purchase without seeing the machine at work, a description of it is deemed unnecessary. Should any person, however, wish to purchase, and find it inconvenient to visit the places where it is in operation, a machine will be furnished, warranted to plane, tongue and groove, and bring to an exact width and thickness, a white pine board of 12 feet long, and of any width from 1 to 14 inches, in one minute and ten seconds, or an oak board of the same dimensions in 2 minutes and 10 seconds. Machines may be seen at work in the cities of New Orleans, Washington, Philadelphia, New York, Boston, and others at the south and east, at Wheeling, Virginia, and at the saw mill of Messrs. Irwin & Herron, in this city.

Persons desiring to purchase will have the certificates of scientific and practical men who have seen it at work, in the different places in which it has been put up, forwarded to them. They give their opinion as to the great value of the invention, state the time they have seen boards dressed by this machine, and describe the quality of the work as compared with that performed by hand labor.

VALUABLE PROPERTY
FOR SALE.

THE Subscriber offers for sale the farm on which he lives, in Washington county, on Pigeon creek, one mile south of Williamsport, on the Monongahela river, to which there is a perfectly level road. This farm contains near 400 acres, the greater part of which is first rate land. There is on the premises a Brick Dwelling House, a Merchant mill, in good repair, a new saw mill, a stone still house, 35 by 40 feet; a salt works is also in operation, and worked to advantage; about 150 acres of land cleared and under good fence. There is on the premises three small tenements for the accommodation of families. This tract is well timbered, and abounds with stone coal and springs of water, both of the best quality.

To a person wishing to embark in a manufacturing business, and possessing capital, this would be a very desirable situation, having the advantage of both water power from Pigeon creek, and banks of the very best coal near to the works, and easy of access, and its vicinity to so navigable a river where articles of any kind are so cheaply transported to Pittsburgh.

For further particulars, apply to James P. Stuart, Merchant, Wood street, Pittsburgh, or to the subscriber on the premises.

TYPE FOUNDRY.

HAVING purchased of Mr. Richard Ronaldson, his long established and very extensive Type Foundry, the subscribers have formed a co-partnership for the purpose of continuing said business, and for the convenience of their friends and patrons, have removed their establishment to a more central part of the city. As it is their intention to keep on hand a good assortment of the best type, and to make such additions and improvements as the taste of the trade and the wants of the country require, they flatter themselves that this establishment will merit a large share of patronage. They have now several founts on hand, which can be furnished at a few hours' notice, and are prepared to make founts of all weights and sizes, from Pearl to 22 lines Pica, including a variety of Ornamental Letter. Their assortment of Cuts, Dashes, Brass Rule, and other Ornaments, will be found to be very extensive, of which specimens will be forwarded to Printers as soon as they can be prepared.

Printing Presses of every description, Printing Ink of the most approved qualities, Composing Sticks, Brass and Common Galleys, Chases, Imposing Stones, Cases, Paper and Press Boards, Standing Presses, Furniture, together with a complete assortment of all articles used in a Printing Office, will be kept constantly on hand.

Small founts, suitable for Book Binders, in great variety, may be had when called for.

Orders from all parts in the Union will be promptly and most carefully attended to, and particularly in supplying *sorts* for all founts furnished by their predecessors, Binny & Ronaldson, and Richard Ronaldson.
